SUMMARY

Motivated Electronics and Communication Engineering Graduate with a strong passion for web development and software engineering. Skilled in HTML, CSS, JavaScript, React, and related front-end technologies, with hands-on experience building responsive and user-friendly applications. Eager to contribute as a Front-end Developer while continuously expanding my skills toward becoming a Full-Stack web Developer.

PROJECTS

My Portfolio :

I developed a fully responsive personal portfolio website using HTML, CSS, and JavaScript, featuring a mobile-friendly sidebar navigation with smooth animations, a dynamic theme switcher for customizable UI, and sections for skills, projects, and contact information. Designed with a mobile-first approach, it ensures accessibility, cross-browser compatibility, and an engaging user experience. The portfolio also showcases all my completed projects in one place for easy access:

Rock Paper Scissor Game :

Designed and developed a responsive Rock-Paper-Scissors game using HTML, CSS, and JavaScript. Implemented interactive gameplay with real-time score updates, smooth animations, and randomized computer choices. This project highlights proficiency in front-end development, DOM manipulation, and creating engaging user experiences.

Java Online shop :

Designed and developed an online shop system in Java, implementing essential e-commerce features such as product management, user authentication, and order processing. It includes functionalities for adding, updating, and managing products, secure login and registration for users, and handling purchase workflows efficiently. This project demonstrates strong problem-solving abilities, practical application of Java concepts, and the ability to build real-world software solutions.
